Idaho Youth Soccer Association Members,

Athletic Club Boise is committed to building meaningful and long-term partnerships that positively impact future generations of Idahoans. AC Boise and IYSA share a common mission – growing the beautiful game of soccer in Idaho by investing in development of its players, coaches, and referees.

We're proud to announce a new partnership between IYSA and AC Boise: IYSA is now the Club's Community Youth Soccer Partner. We are committed to three core pillars of soccer development: coaching education, player development, and referee training. Within that framework, we plan to collaborate in the following areas:

- Supporting ODP facilities, giving Idaho's top youth players access to high-quality training environments.
- Collaboration on coaching education and referee clinics to elevate the standard of instruction and officiating across Idaho.
- Opportunities to host IYSA events at Athletic Club Boise Stadium, such as state or tournament championships.
- Offering youth skill development camps and programming designed to engage players at all levels and age groups.
- Providing need based scholarships to select ODP players, ensuring that Idaho's best players have access to play on Idaho's best teams.

Our commitment is to help foster Idaho's entire youth soccer ecosystem in order to promote growth of the beautiful game in the state we all love so much.
